Press release from: [JMC Software AG](#)

The Synergy Between the Two Companies Will Streamline Implementation Processes for European Customers.

Rotkreuz, Switzerland, Oct 25, 2021 — Virto Commerce, a leading B2B ecommerce technology and digital services provider, has partnered with JMC Software AG, the Swiss market leader in the realization and operation of digital platforms. The partnership will help introduce world-class software solutions to potential customers and foster productive collaboration between the parties.

Virto Commerce recognizes partners with excellence in product knowledge and expertise in providing advanced configuration, customization, and implementation services. JMC Software's first-class consulting experience and valuable expertise in providing implementation and integration services to a broad range of customers have made the company an ideal solutions provider to partner with.

JMC Software AG Solution Partner of Virto Commerce

'We are excited to welcome JMC Software AG aboard and add them to our ever-expanding ecosystem of solution providers across the globe. The partnership with JMC will help broaden the reach of the Virto Commerce platform through their knowledge and innovation and help our customers to streamline digital transformations and unleash their business potential,' says Nikolay Sidelnikov, Business Product Owner of Virto Commerce.

'We specialize in Microsoft-based technologies so partnering with Virto Commerce made perfect sense. Virto's ASP.NET ecommerce platform will be easy to recommend to our customers: it's a cloud-based, API-driven, headless, fully scalable, and composable solution that's perfect for both B2B and B2C customers,' adds José Lopez, the Chairman and Chief Executive Officer of JMC Software AG.

JMC Software AG is a 360° service provider that helps their clients address all technical aspects of business operations, hosting, security, and ecommerce. Since the company's inception in 1996, JMC has gained a reputation as the Swiss market leader in the realization and operation of digital platforms.

Virto Commerce, founded in 2011 by industry experts, is a leading provider of B2B digital commerce solutions. As a Microsoft Gold Partner, the company serves more than 100 companies worldwide and has offices in five countries, including the Americas and Europe. Virto Commerce's flagship product, the ecommerce cloud-based, open-source, .NET platform, is the only B2B-first headless digital commerce solution that is specifically designed to adapt to ever-changing complex scenarios common in the B2B market.
